

Extension of Netball Europe officiating awards / roles due to COVID-19

The following has been agreed with Netball Europe for umpires in England:

Written awards C, B and A

- Any umpire who already has a written award pass with an expiry date on or after the 16th of March 2020 will have their expiry date extended by 22 calendar months, pending review. For example, if your expiry date was originally April 30th, 2020 this will now be extended to February 28th, 2022.
- Any umpire who successfully gains their written award pass after the 16th of March 2020 and before 1st September 2021 will have their award expiry date extended by 22 calendar months, pending review.

Attended a C or B course and not already applied for written assessment

The NE umpiring pathway states that an umpire **must** attend a C or B award course prior to applying for a written assessment.

- Umpires have 2 years from the date that they attended a course (either C or B award) in which to take their written assessment. This is being extended by 22 months, pending review, from the date of expiry.

Application for C, B and A practical assessment

All applications for practical assessments that have already been submitted to a country organiser will remain valid. When normal competition recommences on the 1st of September 2021, organisers will be required to arrange the assessment within the following timeframes:

- C award - 6 months (currently 3 months)
- B award - 8 months (currently 4 months)
- A award - 12 months (currently 6 months)

These timeframes have been extended to allow the candidates sufficient time to undertake relevant match umpiring in preparation for their practical assessment and to allow organisers sufficient time for the organisation of the assessment.
